

Virtual Colonoscopy

All health care plans offer members the opportunity to have a Virtual Colonoscopy as a screening method. A Virtual Colonoscopy, also known as a *Computed tomographic colonography (CTC)* can replace the traditional Colonoscopy. The procedure to prepare for a Virtual Colonoscopy is the same as for a Colonoscopy. Members are encouraged to discuss this procedure with their physician, as some members require a follow-up traditional Colonoscopy.

The member is responsible for applicable out-of-pocket expenses.

Additional information on this procedure is provided in the BCBSD's Summary Plan Description for each health care plan located at <http://ben.omb.delaware.gov/medical/bcbs/index.shtml> and in Aetna's Summary Plan Description located at <http://ben.omb.delaware.gov/medical/aetna/index.shtml>
